any reason for transporting slaves to the U.S. No longer could any ship use the defense of originating in the U.S. while bound for a U.S. port.

It is estimated that the total number of slaves brought into the U.S. illegally during the first half of the 19<sup>th</sup> century was approximately 1.2 million. Given this figure, it is hard to determine the effect of laws banning importation after 1808. As laws were strengthened and enforcement increased, so did attempts to subvert them.

## U.S. District Court for the Southern District of Georgia (Savannah)
